Our Whakatau was held this morning in the school gymnasium to welcome our new students and their whanau to Lynmore School.

Thank you to all the parents/caregivers who were able to attend this very special occasion, as we acknowledge the importance of beginning this school journey together.

FROM THE PRINCIPAL ...

Kia ora e te whānau,

A big thank you to our community for your support of our **Mathematics Professional Development Day** on Tuesday. These opportunities are incredibly valuable for our teachers as they continue to strengthen their practice and ensure the best possible outcomes for our tamariki. I hope you all enjoyed the longer weekend with your whānau—the weather certainly turned it on for us.

Anzac Day Civic Ceremony

Last Saturday, we were proud to stand alongside our community at the Rotorua Civic Anzac Ceremony. Thank you to our whānau who came out to represent Lynmore School—it was special to see so many of you joining us in the march down Queens Parade. A huge thank you to Arlie for laying the wreath on behalf of our kura. I'm sure this will be a memory you will cherish for years to come. Moments like these remind us of the importance of service, sacrifice, and the freedoms we enjoy today.

Rotorua Mini Marathon

Tomorrow we look forward to almost 280 of our tamariki taking part in the Rotorua Mini Marathon—an exciting event for many who will be participating for the first time.

Events like this are incredibly valuable for our young people. They promote:

Health and wellbeing through physical activity

Resilience and perseverance as students challenge themselves

A sense of belonging by being part of a wider community event

We are proud to see our tamariki stepping up, giving things a go, and representing our kura with pride.

EPRO8 Team Challenges

Across our senior school, our Year 5 and 6 students have been actively engaged in EPRO8 team challenges. These hands-on, problem-solving tasks are designed to stretch our learners in exciting and practical ways.

Through EPRO8, our tamariki are developing:

Teamwork and collaboration – working effectively with others towards a shared goal

Problem-solving skills – thinking critically and creatively under pressure

Technological understanding – designing and building solutions using equipment and resources

Communication skills – sharing ideas, negotiating roles, and reflecting on their progress

Our goal is to provide all students with opportunities to grow these skills, while also identifying teams that will go on to represent Lynmore School at the Rotorua EPRO8 competition. We are excited to see the progress our tamariki will make in the lead-up to selections.

Property Update at Lynmore

Unfortunately, work on our Administration Block is taking longer than first envisaged, and progress has currently come to a halt while the Ministry of Education determines the next steps. In the meantime, we are looking at making some improvements to the Gym Mezzanine space to better support communication and create more effective working areas for both our staff and community. We appreciate your patience and understanding as we navigate this.

As always, thank you for your ongoing support of our kura. It is through this strong partnership between home and school that we continue to grow great people through learning, belonging and excellence.

Have a wonderful weekend with your whānau.

Ngā mihi nui,

Hinei Taute Principal

Keeping Our Tamariki Safe: School Parking & Road Safety

Dangerous Parking Practices

Obstructing Shared Pathways

Parking on footpaths forces children onto the road, creating an extremely dangerous situation.

Unauthorised Carpark Use

Staff and gym carparks are not drop-off zones; reversing vehicles endanger nearby students

Stopping on Restricted Lines

Cars stopping on yellow lines or no-stopping zones compromise visibility and active travel safety.

Our Safety Non-Negotiables

Keep All Pathways Clear

Shared pathways, footpaths, and yellow lines must remain free of vehicles at all times.

Respect Safety Barriers

Do not remove cones or enter restricted carparks; these measures protect mobility-impaired users.

Park Legally and Safely

Allow extra time to park further away and model respectful road use for tamariki.

FOR YOUR INFORMATION ...

SAFE PARKING REMINDERS

New Zealand's Fuel Response Plan 2026

Phase 1: Watchful

What's happening

The fuel market is operating effectively and fuel is available nationwide. However, prices are rising due to global market changes.

This phase is about supporting the market and making sure Kiwis have good information.

What the Government will do

- Monitor fuel stocks and shipments
- Publish twice-weekly stock updates
- Monitor global supply and maintain engagement with international partners
- Coordinate closely with industry players to ensure markets continue to work well
- Understand and prepare to reduce its own demand
- Provide information to the public, including on how to reduce fuel bills

What you can do

- Access fuel as you normally would
- Regularly check MBIE's website
- Be aware of EECA's information on fuel-saving measures

Phase 2: Precautionary

What's happening

The market continues to operate effectively and fuel is available nationwide, but there are signs of significant supply disruptions.

This phase is about shoring up supply, closer coordination between Government and industry, and managing demand.

What the Government will do

- Continue to monitor fuel stocks and shipments, and publish twice-weekly stock updates
- Work with international partners to keep fuel flowing to New Zealand
- Coordinate closely with key industry players to ensure fuel is effectively distributed
- Review regulations to enable reduced fuel use
- Implement a public sector fuel response plan
- Provide information to the public on how to reduce fuel bills and conserve fuel in the national interest

What you can do

- Access fuel as you normally would
- Consider combining trips, and/or other modes
- Regularly check MBIE's website
- Follow EECA guidance on additional measures to help save fuel day-to-day

Phase 3: Managed *UNDER CONSULTATION*

What's happening

Supply is tighter and the Government is making sure fuel gets where it is needed most.

This phase uses Government powers, implemented by industry, to protect critical services. Measures will be lifted as soon as conditions allow.

What the Government may do

- Prioritise uninterrupted supply to life-preserving services, and help direct fuel supply to others according to priority, for example via purchasing limits
- Provide regular public updates, listen to industry and communities, and adjust accordingly
- Regularly assess how things are going, and get back to Phase 2 as soon as possible

What you can do

- Be confident that ambulances, fire services, hospitals, and food supply chains are covered
- Follow any purchase limits
- Check the daily update to understand how long measures will be in place

Phase 4: Protected *UNDER CONSULTATION*

What's happening

There is a bigger or sustained supply disruption, and there are formal rules to ensure fuel is distributed fairly.

This phase is about protecting critical services, and making sure everyone else gets a share. Measures will be lifted as soon as conditions allow.

What the Government may do

- Prioritise uninterrupted supply to all life-preserving services, and more strictly direct how fuel is distributed to other customers
- Maintain daily public updates, listen to industry and communities, and adjust as appropriate
- Regularly assess progress, and get back to Phase 2/3 as soon as possible

What you can do

- Know that essential services like food supply and emergency response are fully protected
- Use service stations as directed
- Check the daily update
