

Knighton Normal School Health and Physical Education Curriculum 2026 Community Consultation

Like all NZ schools we are required by MOE legislation to consult with our school community, parents and whānau about our Health Curriculum every two years. We need your 'voice' to enable us to know what you think we should continue to focus on, what could add to our health curriculum in 2026, and what we should prioritise. The data collected in this consultation will be used to form strategic goals and learning programmes in 2026.

Please circle a number from 1 to 5 to indicate how you feel about the importance of health topics to be included in our curriculum, and return the form to the Frog Box at the Smiley Window by the end of this term, Friday 13th March.

Healthy Eating	1 Not needed	2 Not very important	3 Important	4 Very Important	5 Extremely Important
	Comment: (if needed)				

'Daily Fitness' Programme	1 Not needed	2 Not very important	3 Important	4 Very Important	5 Extremely Important
