History: Muslim Inventers

Parents please note that each child must have their own stationery at school everyday. Only send stationery that is necessary for the day, keep all extras at home. Stationery needed daily (pencil,sharpener, eraser, ruler, colours (pencils \markers). Children should not lend peers their stationery. Can you please get a new homework book for your child? I will also be working on behaviour which was not very good last term. If your child does not behave in class you will be receiving a warning letter. Homework should be done, checked and signed daily.
Please ensure that your child is always punctual.
I would also like to meet with as many parents as possible early in the term, especially those who did not see me last term.

Kind regards
Ms Michelle
